● **WARNING**  
 Over time, your hearing "comfort level" adapts to higher volumes of sound, so that what sounds "normal" can actually be doing harm. To protect against hearing loss, set your equipment's volume at a low setting, slowly increase it until you can hear it comfortably and clearly, and leave it there. Do not turn up the volume so high that you can't hear what's around you.

● **AVERTISSEMENT**  
 Avec le temps, votre système auditif peut s'adapter à des volumes supérieurs, et ce qui vous semble un « niveau de confort normal » pourrait en réalité nuire à votre audition. Pour éviter toute perte auditive, réglez d'abord le volume de votre matériel à un niveau inférieur, puis montrez-le progressivement jusqu'à un niveau décente confortable et clair. Ne touchez ensuite plus au bouton du volume, et assurez-vous toujours de pouvoir entendre ce qui se passe autour de vous.

● **BEFORE INSTALLATION**
